Our Washington Dispatches. MEETING OF CONGRESS-HOBACE GREELEY-THE RE-CONSTRUCTION COMMITTEE PROPOSE FURTHER LE-GISLATION FOR THE SOUTH-GENERAL ORD'S RE-POET ON HIS DISTRICT—HE CONSIDERS THE MILI-

TARY NECESSARY, ETC., ETC. Washington, December 2 .- Congress organized at 12 o'clock. Greeley publishes a card declaring that as he has not been officially notified of his appointment to Austria, therefore he neither accepts nor de-

clines; but he does not intend leaving his country pending the Presidential election. The Internal Revenue receipts to-day amount to \$2,211,000.

It is generally understood that the Commissioner of the Revenue, Rawlings, will soon resign. The Reconstruction Committee had a meeting at Stevens' room; the majority held that further legislation was necessary before reconstruction could be completed.

The Judges of the Supreme Court, led by Chief Justice Chase, visited the President. It is stated that Cornelius Wendell succeeds

Clark as Superintendent of the printing at the Treasury.

The President will nominate S. S. Cox to Austria, vice Greeley declined.

The conclusion of General Ord's report says: "In a majority of the counties of this District there are few men who can take the test oath, and these are not disposed to defy public opinion by accepting office, unless supported by a military force afterward. The will of the colored people may be in favor of supporting loyal office-holders, but their intelligence is not now sufficient to enable them to combine for the execution of their will. All their combinations are now conducted by white men, under the protection of the military. If the protection is withdrawn, the white men now controlling would withdraw with it, and some of the Southern people, now examperated at what they deemed the freedmen's presumption, would not be very gentle towards them. So that the presence of a large military force will be required for some time to maintain the treedman in the right of suffrage.

San Francisco, December 2 .- Pesquire has been re-elected Governor of Sonora. The Conference is not restored. There is a strong movement in Durango in favor of an independent Republic. The Government troops were defeated, and all the Northwestern States were expected to join in the revolution. Martinez desires the Governorship of Cinola, and unless nominated by the Legislature, will saize the government. He heads the Republican army. The army lately dismissed will play an important part in favor of the best payers, as they are disgusted about their back pay.

"THE OLD CAPITOL PRISON."-We wish somebody would give the public an impartial, accurate account of what took place during the war in the Old capitol prison. Think of American citizens being snatched up and held in confinement one, being snatched up and held in confinement one, two, and even three months, denied all communication with their friends, and charged extotionate phices for what they desired. And when the facts are investigated, no substantial charges are made out. Think of prisoners not being permitted to hold converse with their counsel unless in the presence of a detective. Think of men being persecuted by their jatior until, in sheer desperation, they commit suicide. We believe that if the people understood a tithe of the secrets of the Old Capitol prison we would have much less said about the enormities of Libby prison.— Westingen Express.

I have directed that papers on the subject shall forthwith be laid before you. I receive from all fereign Powers assurances of their friendly feelings, and I see no reason to apprehend the disturbance of the general peace of Europe. have found it necessary to call for your attendance at an unusual, and, probably, to many of you, an inconvenient season. The Sovereign of Abvasi-nia, in violation of all international law, continues to hold in captivity several of my subjects, some of whom have been especially accredited to him by myself, and his persistent disregard of frienchy representations has I ft me no alternative but that of making a peremptory demand for the liberation of my subjects, and supporting it by an adequate force.
